## REGULATIONS DURING ERECTION.

6. In all cases of erecting any buildings on the line of any street or public road, or within seven feet thereof, the builder shall erect a board fence six feet high to enclose one-half the sidewalk allowance in front of such building, and lay a planked pathway, at least four feet wide, outside of such fence, for the convenience and security of the public; or he may, instead of such fence and pathway, plank over the whole of the scaffold at the height of the first floor above the ground floor, and enclose such scaffold at the same height at least eighteen inches all round above the level of the said planked floor, the sidewalk being left free for public use. [No. 98, s. 6.]

7.
